On Thursday last she heard that he was stopping at one the hotels in the city (he having removed from this place a few years since) and she provided herself with a pistol and repaired to the hotel. She met and tried to shoot him, and the weapon failing to fire, the guilty party, who immediately recognized his victim, wrenched it from her grasp and himself fired the pistol in the sir. A short consultation then took place between them, when they retired to a room and held a private interview of some length, the result of which we are unable to state. We refrain from giving the names of the parties in consideration of the friends on both sides.

Persons going up Main street after dark, have noticed that the gas lamps have not been lighted for the past few evenings, while on Market street they were in full blast. The cause was attributable to the fact that there was water in the gas pipes. Last evening workmen were engaged in pumping the water off, and now Main street may expect light.
